PROFILE

I am a dedicated and passionate Frontend Developer with a background in Mathematics. I specialize in building interactive, responsive, and visually appealing web interfaces using modern technologies like React.js, Next.js, Tailwind CSS, and JavaScript (ES6+).

I focus on crafting clean and maintainable code, ensuring smooth performance, accessibility, and responsiveness across devices. I enjoy working collaboratively, learning new technologies, and turning creative ideas into functional web experiences.

I'm continuously learning new frameworks and tools to stay updated with the latest development trends — always aiming to deliver modern, high-quality digital experiences.

EXPERIENCE

Tech Master Institute 2024 - 2025
Frontend Development Trainee

- Built responsive user interfaces with React & Tailwind CSS.
- Integrated REST APIs and optimized frontend performance.
- Collaborated on team projects using Git and GitHub.

Local Government Council - Budget Department 2024 (6 months)
Administrative Assistant (Siwes)

- Maintained accurate records and financial documents.
- Prepared and reviewed budget-related reports.
- Assisted in administrative and data organization tasks.
